

# The Reflection with Auto Cover

Bearing all the bells and whistles for which The Reflection is known, this functional, stylish, and stunningly designed pool comes with the option to cover the pool efficiently and with ease.

We took this design to the next level, incorporating a built-in housing area for an optional automated pool cover. In addition to keeping debris and leaves out of your pool, a retractable cover will also improve your heating options. This pool design is ideal for many environments and climates.

Not only do you have the benefit of a convenient and inconspicuous means to store the cover, but you also enjoy efficient use of space since it is built directly into the pool. Further, you can easily retract your pool cover out of sight. No one will even know it's there!
